

CULVERT CONSTRUCTION AND SUPERVISION FAULTY - INQUEST

Faulty construction and lack of supervision loomed as likely culprits in the collapse of the Hawk Lake culvert-causeway after five days of testimony before a coroner's jury in Minden this past week.

So far a parade of some 34 witnesses have testified at the inquest into the death in the collapse of the culvert last May 23 of Mrs. Margaret Helen Hickman, 68, of Toronto and her two grandchildren, Karen and Gordon Schram, age 7 and 9, of Peterborough.

The trio were returning to the Hickman cottage after purchasing ice cream and candy at a nearby store when the 26-foot diameter culvert crumpled beneath them.

Last week civil engineer Larry Windover of the consulting engineering firm of Totten, Sims and Hubicki appointed by the province to investigate the design and construction of the ill-fated culvert-causeway immediately following the collapse, told the inquest the culvert should have been constructed of heavier gauge steel because of winter conditions and that the use of tension cables to close an unusual 15-foot gap in the top of the culvert could have deformed the shape of the culvert and reduced its load carrying capacity.

Other contributing factors according to Mr. Windover included improper backfilling and the use of frozen fill, while compaction of the backfill was insufficient to hold the culvert in place.

He said the culvert was topped with only 3½ feet of fill, not the 6 feet normally required. His testimony also indicated that tests of bolts holding the culvert plates together showed only 30 foot-pounds of torque instead of the required 150 to 200 foot-pounds of torque. Haliburton consulting engineer Curry Bishop told the inquest earlier this week that he did not draw up a detailed plan for the culvert-causeway and that all the design work was Tye Irwin's in conjunction with the supplier of the culvert, Westeel Rosco. Mr. Irwin is a certified engineering technician with Mr. Bishop's firm, H. Curry Bishop Ltd., and the president of Irwin Construction Services.

Mr. Bishop said on-site

Just Volunteer!

You could say that the Stanhope Volunteer Fire Department is more like a club than a fire department and, in a way, you'd be right. Daily this 24-member team proves that when it comes to fire de-

partments it's unique to Ontario, and, undoubtedly, most places right across Canada. There's a waiting list for membership and as usual being a volunteer at Stanhope Fire Depart-

ment involves more than fire fighting. Currently the S.F.D. is building its own fire hall and is donating not only all labor but \$25,000 of the building's total cost of

\$30,000. For Stanhope ratepayers their new fire hall will cost them just \$5,000 out of municipal revenues. With completion date of the 32 by 60-foot, cement block and frame build-

ing dependant on the fire-fighters' fund raising, it will take a few more dances and sales of cook books before the date can be set. But knowing those firemen, it'll be soon.

Minden man dies after fall

A well-known Mindenite who apparently bled until unconscious was found dead on the floor of his boarding house room on Bobcaygeon Road last Wednesday morning. Haliburton coroner Dr. Harry Good pronounced Jack Vernon House, age 39, dead from asphyxiation and blood loss after his elderly landlady, Mrs. Maude Campbell, found him face down on the rug in his room about 7 o'clock that morning.

According to police Mr. House had returned home about 3 p.m. the previous afternoon but fell while mounting the porch steps, striking his head on an aluminum storm door and breaking the glass in the door.

Although bleeding profusely, his scalp badly lacerated above the right ear,

Mr. House refused Mrs. Campbell's offer of assistance and declining medical attention, went to his ground floor room. Mrs. Campbell told police she went to bed about 8 that evening but heard Mr. House moving about during the night. She said she found him when she went to awaken him for breakfast the following morning. Running outside she stopped a passing motorist who called police.

Police said that on entering the house they found everything in Mr. House's room smeared with blood, including bedroom furniture, mattress and bedclothes, the floor, plus the stove, refrigerator, kitchen, living room and bathroom. A bachelor, Mr. House had been a resident of Minden for many years and had held a variety of positions in the Village. He is survived by a brother, Ervin, of Huntsville.

Clean bill of health for Dysart arena

The Haliburton Village Arena got a clean bill of health from Ontario's Ministry of Labor two weeks ago when a letter from the Ministry advised that the arena was not included in our 'suspect list'. The letter pointed out that the arena 'appeared to be in reasonable condition', but asked for the assurance of a professional engineer that

it meets the load requirements of the National Building Code of Canada. 'We believe that the arena needs some repairs', pointed out Reeve Murray Fearrey this week, 'but these are all minor and will not be undertaken until after the engineer's report is received, probably some time next year', he said.

Stanhope gets \$29,000 O.H.R.P. grant

A \$29,000 Ontario Home Renewal Program grant has been made to Stanhope Township. The grant, designed to assist owner-occupants to repair, rehabilitate and improve

their homes, was announced at last week's meeting of Stanhope council, in a letter from Ontario's Housing Ministry. Ten million dollars has been available to municipalities

during the 1974-75 fiscal year. Subject to a review and evaluation of the Program it is anticipated that the same amount will be available in each of the following two years, the

announcement said. The program distributes these grants in the following manner:

Office
286-1760
Secretary-Manager
457-1110

While Elaine spent a busy week here in the office learning the ropes of her new job, we were out of the County this week. We attended the meeting at Queen's Park last Tuesday at which the Ontario Chamber presented their submissions to the Provincial Cabinet and we went from there to Stratford for the balance of the week for the O.C.C.E. Convention.

The meeting with the Cabinet went relatively well and the government was fairly receptive to the suggestions of the Chamber. The one area of concern that was not resolved to the satisfaction of the Chamber was the pending Property Tax Assessment legislation. The government is currently holding meetings throughout Ontario so that interested parties may speak their mind and they point out that at this time no Chamber of Commerce has done so. The Chamber, on the other hand, feel they cannot present an intelligent document on something of this nature until they have been provided with much more information than the government has presently made available. After this meeting with the entire Cabinet, smaller discussion groups were arranged with various Cabinet Ministers. We would like to have talked with Mr. Bernier of Natural Resources, but he was not available, so we had another chat with Claude Bennett. We figure if that Ministry sees enough of us they won't forget us again. Of particular interest to our area is the fact that Mr. Bennett has arranged for the editor of the Travel Counsellor's Directory from which we were recently omitted, meet with us and discuss what information we should have included in this book. We also discussed the effect on the minimum wage on resort operators and recommended a reduction in the O.D.C. rates to Tourist businesses again. Mr. Bennett agreed to apply further pressure on the Labour Ministry on behalf of the first problem, but in the case of the second, suggested we had better be satisfied with a 2% below prime rate for O.D.C. loans.

The O.C.C.E. Convention in Stratford was a meeting of Chamber of Commerce management staff from all over Ontario who meet once a year to pool ideas and resources. It was extremely interesting, educational and last but not least, enjoyable. It was interesting to note the varied backgrounds of the managers we met. There is no formal training for this type of work which makes it just that much more important for us to get together and pick each others brains for ideas. We brought back quite a few.

Well, so much for Conventions - now that we are back, it's knee deep in things to do here! The fall advertising program is underway this week, the Crosscountry Ski Club is meeting, our Directors meet, Hockey meetings, Vern Telford is meeting us Friday to tape interviews for fall colour promotion, the Snowmobilers are having a public meeting regarding the Whitney trail through the park, and our birthday calendar, telephone books, annual meeting and elimination draw-dance all need some immediate attention. Just the other day someone said, "What do you do with your time up there after Labour Day is over?!"

INQUEST

FROM P. 1

inspection was at first entrusted to a \$6-an-hour construction foreman and then to a \$3-an-hour 'clerk of the works', Steve Laliever.

Mr. Bishop said he did not feel there was any neglect on the part of his firm but that 'I feel sorry it happened and I feel morally responsible for it, in afterthought,' he said. He said his firm made no money on the \$38,000 project financed by the cottagers.

'We were trying to do these people a favor', he pointed out and said there would have been no deficiencies in the culvert if the cottagers could have afforded a proper one. 'That's a poor excuse', commented presiding coroner Dr. Ross B. Bennett. 'Did you tell them you could

have built a better one for \$100,000, instead of this Mickey Mouse one for \$20,000?'

Mr. Bishop said that on learning of a deflection in the shape of the causeway in late April he had directed Mr. Irwin to stop all traffic over the culvert, but that on the advice of Westeel Rosco this was not done.

Testifying Tuesday Mr. Irwin disagreed strongly with much of the previous expert testimony.

He told the inquest that while he himself was in charge of the project he considered Warren Jenner, an employee of Westeel Rosco, to be the actual supervisor of the project.

The inquest continues with more than 25 witnesses still to be called.

Warn of phony survey takers

Watch out for door-to-door survey takers and canvassers.

This was the warning issued Monday by Dysart council following complaints of a phoney survey group in the Haliburton Village area.

Reeve Murray Fearrey told council that on following up on a complaint of a so-called high school survey being conducted in the village, he found that none have been authorized by either the Haliburton Highlands Secondary School nor the Haliburton Board of Education.

Council speculated that a recent rash of breakins in the village may be related to phoney surveyors 'casing' homes.

Council decided to accept the suggestion of O.P.P. Corporal Terry Sneddon of Minden that all persons wishing to canvass, survey or enumerate in the municipality be required to hold a special pass issued by Dysart and warned residents to be sure and demand identification from them.

CANADIAN ADVERTISING ADVISORY BOARD

The Reeve's Corner

by Reg Booth
Reeve, Anson, Hindon & Minden

Following our remarks on the decline in education as printed in the paper last week, we wish to thank all those who called us regarding this problem. We were contacted by no less than three teachers who have given up the teaching profession because they are now unable to do the job under present conditions.

Here in part are the remarks of the Minister of Education, The Hon. Thomas L. Wells, in relation to councils and school boards as promised last week.

'I am interested with regard to refusals to pay school board requisitions. I feel that perhaps additional clarification would be helpful.

A school board is directly elected by the local people to represent them on all educational matters in the same way that a local council is elected by the people to represent them in municipal matters. Each elected body has different statutory obligations and is responsible to the electors for its actions. The only real connection between the two bodies is that, in the interests of efficiency and economy, the legislature has determined that the staff of municipalities will perform certain services for school boards such as the collection of taxes and the administration of elections. I hope that this brief explanation may clarify the misunderstanding that arises occasionally in which a school board is seen as in some way responsible to a municipal council rather than DIRECTLY to its electors.'

The Minister herein places responsibility for school board decisions in the hands of the ELECTORS.'

Trent-severn Waterway News

With 59% of the total storage water remaining in the Reservoir Lakes on September 7th, it appears that serious shortages can be avoided in the remainder of the navigation season, which ends on October 13th.

Present discharges from the Gull and Burnt Rivers have been increased only slightly from last week, due to a small surplus remaining in the Kawartha. Flows have been increased again from Anstruther and Mississauga Lakes and stoplogs have been removed from one weir of the Bottle Lake Dam under our agreement with the Ontario Ministry of Natural Resources. This water is taken once a year between September 10 and October 10th, after which the stoplogs are replaced.

Reduced evaporation is making it easier to maintain navigation levels in the Kawartha and the Ontonabee River flow past Peterborough is holding somewhat above minimum.

At Maple Lake we have reduced flows from lakes upstream to lower the water level by about one foot for two or three days to facilitate installation of the flow gauge. By the middle of next week the level should be coming back up. Hawk Lake is still being held above ten feet on the gauge at the dam to allow boaters continued access through the area of the collapsed culvert to the Big Hawk Marina.

Concrete restoration at the Norland Dam is continuing.

\$3,500 damages in 3 crashes

Damages of almost \$3,500 resulted from three area collisions last week in which three persons suffered minor injuries.

One driver was charged by police.

A week ago Monday on Lutterworth Twp. Road, Charles Hughes, 21, of Toronto was charged with failing to share half the roadway after the car he was driving collided on a curve with another car driven by Glynne Lewis, 63, of Minden.

Mr. Lewis and his wife, Aileen, 68, both suffered bruises and were treated at Minden Hospital.

Damage to the two vehicles was estimated at \$900.

Investigation by Provincial Constable Weldon Popp.

In the early hours of Monday, September 6, Joseph Errington, 29, of Willowdale was treated for bruises at Haliburton Hospital after the car he was driving on Haliburton Lake Road rounded a curve, went over the east bank and rolled onto its side.

Damage was estimated at \$1,000.

Investigation by Provincial Constable Ron Buchanan.

Thieves net \$3,000 in rash of breakins

A rash of cottage, home and business break-ins across Haliburton County have netted thieves close to \$3,000 in articles and cash according to police.

For the Wilberforce Liquor Store last week's break-in brought the total number of break-ins at the store to almost an even dozen since it opened two years ago.

Once again, thirsty thieves smashed the \$400 front window then made off with some \$70 worth of whiskey from what has become their favourite Haliburton Highlands oasis in the wee small hours.

Although police have recommended steel mesh screening for the window and an alarm system, their advice has gone unheeded.

In Lutterworth Township thieves broke through a door and into the cottage of Lyrlie Trotter, 62, of London causing \$20 damage and stealing some \$534 worth of antiques, paint and a coat.

Sometime last week thieves forced their way into a cottage on Hwy. 121 north of Kinmount belonging to Jack Hill, 54, of Scarboro, Executive Officer to Ontario's Chief Coroner, Dr. H. B. Cotnam.

While the cottage was undamaged, a variety of electrical appliances, tools, drapes, a .22 rifle and a TV

set valued at \$866 were stolen.

During that same period, a Snowdon Township cottage belonging to Merle Schrader 30, of Bobcaygeon was entered and a lawnmower, sump pump and tools valued at \$680 were stolen.

Meanwhile in Haliburton Village, a home and a store were both burglarized.

Jewellery worth some \$600 was taken from the home of Vella Bernstein while at Western Tire thieves cut out a piece of glass in the back door to let themselves inside then paused only long enough to scoop up \$25 in cash and \$65 worth of .22 ammunition. Damage to the premises totalled \$20.

GRANT

FROM P. 1

10,000 population \$4 per capita or \$4,000, whichever is the greater.

b) Municipalities with population between 10,000 and 99,999, \$3 per capita.

c) Municipalities with population of 100,000 and over \$2 per capita.

According to Gerald Bain, Stanhope Clerk, a notice will appear in the local papers in a couple of weeks, hopefully and application forms will then be made available.

On A Limb

Last year the Haliburton County Snowmobile Association went out on a limb and purchased a BOMBI trail groomer.

Although costly, this machine can turn the roughest snowmobile trail into a virtual super highway and promises to make our county's already outstanding trails far and away the best in Ontario and a sure-fire winter tourist attraction for the Highlands.

With trails becoming if anything scarcer in southern Ontario, good scenic snowmobile trails, well planned and impeccably groomed are fast becoming a premium drawing card.

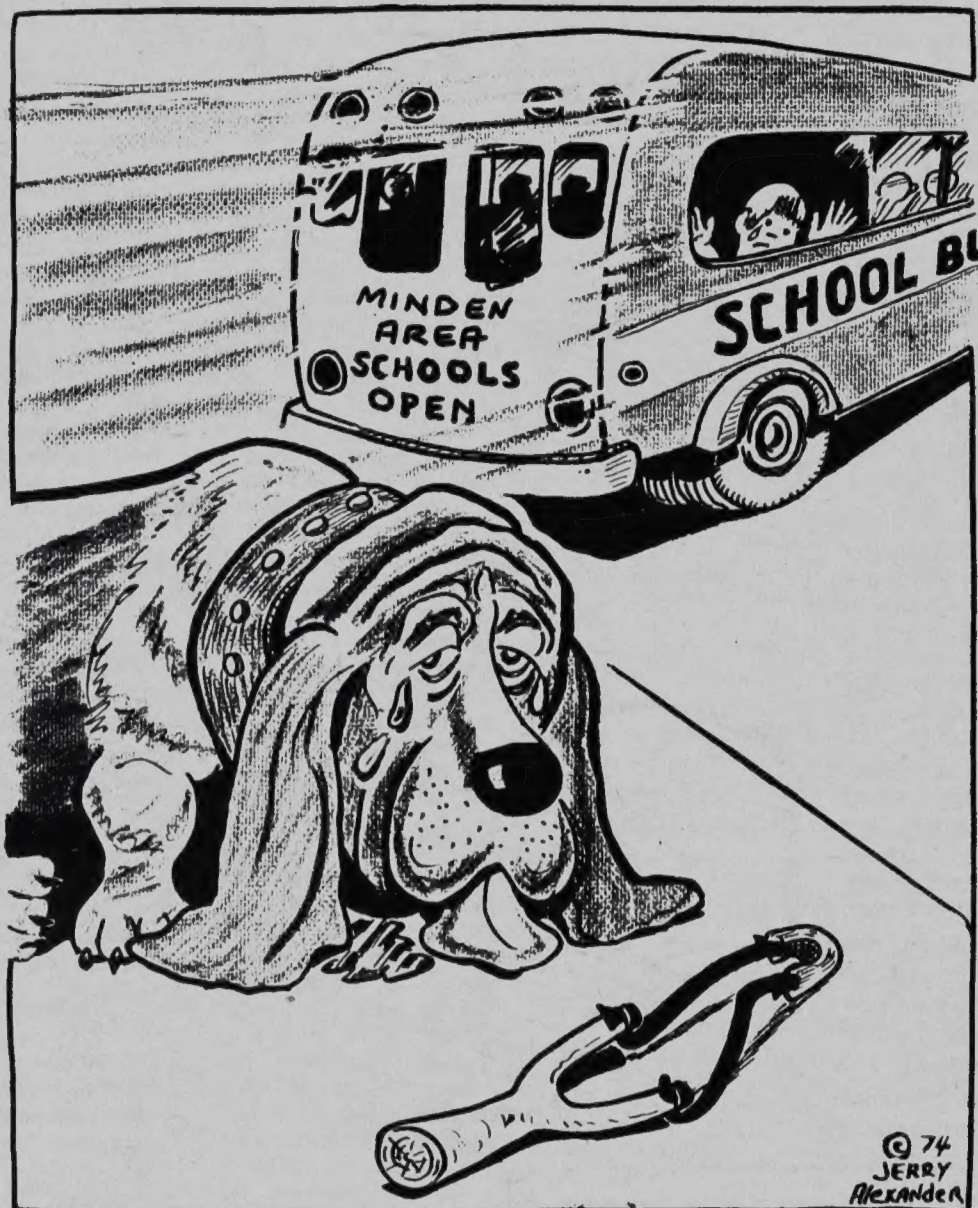

Here in the Highlands we have mile after mile of superb trails requiring only the touch of the BOMBI for simply delightful snowmobiling.

One drawback facing the Haliburton County Snowmobile Association, however, is that the BOMBI is costly and must not only be paid for, but its operating expenses met.

This Saturday the association is staging still another of its special dances, this time in the Minden Community Centre, to raise funds for the BOMBI.

Get out and give this project your support. You'll not only have a good time, but you'll be helping as worthy a community cause as you're likely to come across.

And even if you can't make it, buy a ticket anyway and show your support for an outstanding county-wide organization.

A CRYING SHAME

Naive

Report from Queen's Park

by

John Eakins, M.P.P.

Prime Minister Trudeau and the federal Liberal Party may act surprised at the sudden drop in their popularity as shown in that recent and well-publicized Gallup Poll, but they shouldn't be and we'd guess they're not, really.

Any government that deliberately flies in the face of public opinion as our Ottawa government has done in recent months would be unbelievably naive to expect anything else.

Whether they can retrieve that lost popularity before the next election now rests, in the last analysis, with the people of Canada and just how naive they really are.

Each year, many young people in Ontario continue their post-secondary education with financial assistance obtained through the Federal Government's Canada Student Loans Plan and grants provided by the Government of Ontario. The loan and grant programs are both administered through the Provincial Government's Ontario Student Assistance Program (OSAP). Loans are interest free while students are in full-time attendance at the specified educational institutions. Grants do not normally have to be repaid. In addition to OSAP, a number of bursaries, fellowships, scholarships and other forms of financial assistance are available through the Federal and Ontario Governments.

Students may qualify for loan and grant assistance if in full-time attendance at a university, a college of applied arts and technology, a teacher education college, a college of agricultural technology, Ryerson Polytechnical Institute, the Royal Military College of Canada, the Royal Conservatory of Music, the Ontario College of Art, the Ontario Bar Admission Course, the Canadian Memorial Chiropractic College. Loan and grant assistance may also be possible for students planning to attend a university, an approved community college or a Canadian Military College in another province, as well as an Ontario university in a preliminary year equivalent to Grade 13, or one of the numerous public and private post-secondary institutions, in Canada and throughout the world, which are recognized by the Ontario Government. All loans and grants are, of course, only awarded in cases of financial need, within the clearly specified guidelines.

While loans are interest free during the period of full-time attendance at a specified educational institution, repayment must usually begin six months after completing such full-time study. Interest rates vary slightly from year to year, and students are advised to discuss this matter when nego-

tiating loans. Immediate repayment in full is required if false or misleading information is provided in applications, and partial repayment may be required if financial circumstances change.

More than 106,000 applications were received by OSAP in 1975-76, and assistance was provided to more than two out of every five students in Ontario. The province's budget for OSAP grants this year is \$61 million, up from \$49 million in 1975-76.

As of August 27th this year, more than 74,000 applications were received by the Ontario Student Assistance Program of which almost 50,000 have already been processed, and the results sent out to the various colleges and universities. Another 15,000 applications will be processed and returned to the institutions in the next week or so.

There has, apparently, been some delay in processing applications, due to the great number received in a comparatively short period. However, for the most part, those students who applied early in the summer should know the results of their applications by the end of September, provided that all the necessary information was supplied. Any inaccuracies would, of course, slow down processing of the application.

OSAP loans and grants are only available to full-time post-secondary students who are unable to meet the full cost of their education. Usually, the first \$1,000 of assistance is provided in the form of a loan guaranteed by the Federal Government, with additional funds being provided in the form of a non-repayable grant from the Province.

Students who were unable to find work this summer, may also be eligible for additional loan assistance, in view of their particular difficulties. See you next week.

THE ENERGY WASTE WATCHER

Summer is the time for servicing the home heating unit, but this does not mean that during the winter there is nothing the homeowner can do to keep his fuel bill to a minimum. Weekly and monthly checks could be of benefit to you. A word of warning though. DO NOT attempt to make any changes that will affect the safety or reliability of the unit.

Oil-Fired System

DO NOT attempt to adjust any of the electrical control boxes. If the burner fails to ignite when the thermostat is calling for more heat, first check the fuse box. If this is in order, see if there is oil in the tank. If there is, look on the furnace for a small button or lever marked "re-set". Press the re-set button, but not more than twice. If the burner still does not ignite, call your burner service man.

Your burner needs an adequate supply of air to function properly; this should be checked during the summer maintenance, but you can help by keeping the furnace area clear. If you have a

warm-air furnace, ensure that you keep the air registers clean and free of obstruction. Change the air filters once a month during the heating season.

There are times during the winter when you might need your unit serviced. Here are three ways to see if your furnace is working efficiently.

1. Check the colour of your chimney smoke; if this is white during cold weather then the furnace is good. If it is grey or black then the burner needs retuning.
2. Look at the tip of the flame; if it is black and the flame is dull yellow

instead of a light yellow flame with no trace of smoke then your unit should be retuned.

3. If there is more than a thin film of soot in the heat exchanger (at the top of the combustion chamber) then the furnace needs cleaning. You will have to pay to have your furnace retuned, but you will still save money in the long run.

Gas-Fired System

DO NOT attempt to adjust any of the control systems. The gas utility has a 24-hour service for emergencies and will repair any faults with the

system.

If the burner fails to ignite when the thermostat calls for heat, check that the pilot light is on. If it is out, attempt to relight it but you must follow exactly the in-

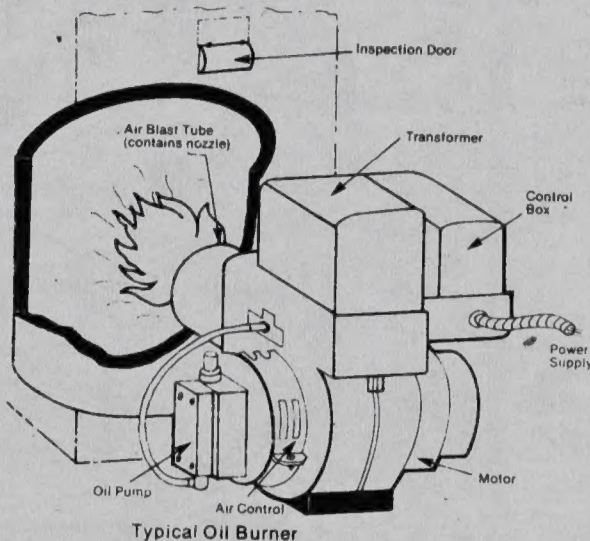

structions on the rating plate attached to the furnace.

The same general points for the oil-fired unit apply to the gas-fired one. The burner must have an adequate supply of air; keep the air registers clean and clear, and keep the air filters clean.

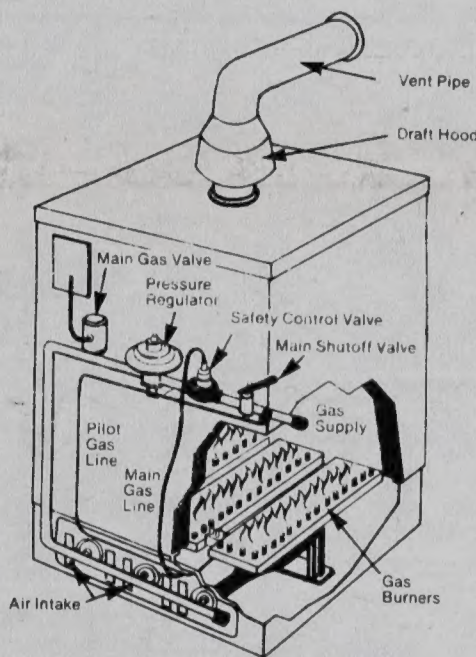

DO NOT attempt to clean or adjust gas furnaces. If you suspect that something is wrong, call your gas utility immediately.

OTTAWA and Small Business

Much to learn from Quebec

By KENNETH McDONALD

There is a grave danger that bilingualism will be made the scapegoat for many of the far more serious problems that threaten Canada's future.

...

The blazing absurdities of the federal program -- trying to make 55-year-old civil servants fluent in French; sending senior mandarins and wives on year-long immersion courses -- have obscured the legitimate goal of bringing a sense of partnership to the two founding races.

...

It's a tragedy that Canadians should be engaged in a national debate on an issue like language, a debate which serves only to weaken the national fibre. The political focus in a country such as Germany, for example, is on issues such as apprenticeship training and co-worker determination, which serve to strengthen the nation.

...

It's easy to sympathize with Quebec's concern for the preservation of its traditions and language. Though Quebecers represent 25 per cent of Canada's population, they are a shrinking minority on the North American continent. And despite what people may think in Victoria or Charlottetown, Quebecers aren't trying to push French down anyone's throat -- that's been the preoccupation of self-seeking politicians and bureaucrats.

...

Small business has much to learn from Quebec. It is the most progressive of all the provinces in the de-

velopment of policies to strengthen small businesses and local communities -- attitudes more European than North American. In relation to the rest of Canada, Quebec has the largest small business community.

...

Yet Quebec suffers more than the rest of Canada from the power confrontations among Big Labour, Big Government and Big Business. An independent Quebec could be dominated by the labour unions which have repeatedly declared that their objective is to destroy the free enterprise system.

...

What is needed, in Quebec and elsewhere, is a set of common goals and objectives around which the whole country can unite. Faced, in the 1980s, with oil possibly as high as \$20 a barrel, with a devalued dollar and with slower economic growth, it is time for the nation to pull together, not fall apart.

...

Together we need to build a more governable society in which social tension and alienation are reduced; family and community life strengthened. These are goals which French and English Canada can share.

...

It is a source of encouragement that the Canadian Federation of Independent Business is gaining a strong membership in Quebec. The 75 francophone small businesses that are joining each week may well be laying the foundation for new bridges to hold the country together.

Comments from Kinmount

By Fran Crawford

Sorry to hear Mrs. Charlie Henderson has been in Haliburton Hospital since last Wednesday. Hope she can come home soon.

Gladys Silvers is on a months holiday from Kinvale Restaurant and Jerry is on holidays from Scott's Store. They will really be enjoying the nice weather, it's to be hoped it will last.

Anyone interested in taking the St. John's Ambulance course, it begins Wednesday, Sept. 22 at 7 p.m. and will be held every Wednesday for six weeks, at the municipal office in Minden. This is a good course for anyone and it does not mean you have to work on the ambulance but you learn a lot that the average person does not know. You can just go to the first meeting and sign in then.

With all the frost we have had and now all this beautiful sunshine, so many gardens have been frozen but the odd one is still hanging on. The flowers seem to be standing the best.

Talking about flowers, there is a row of sunflowers in Max Hancock's garden at Irondale and they stand about eight feet tall. Earl Askey of Kinmount has one that is really something different, it only stands about five feet but has had eleven blooms on it.

Mrs. Gertie Spencer of Furnace Falls won \$25.00 at Norland Bingo on Monday night and just needed O 74 to win the \$600.00 jackpot. Too bad, Gertie. Anna Marie and Craig Mumford arrived out west and had a very good trip.

By the way, did you know? You can freeze beet tops and have greens next winter some cold day. Jerry Crego told me this - believe it or not!

Frank Ferrin and Tom Bacon are doing a wonderful job of cleaning up the Fair Grounds and I think they should get a bit of credit for it.

LEGION 441

Everyone who turned out for the colour party at the Fair were really appreciated. The auxiliary would like to thank all the members who contributed to the stand at the Fair, too.

No bingo news - I guess I'll have to start going to that too.

Mr. Albert (Ab) Hartin won the 50-50 draw Saturday night (\$38.00). They have bought tickets for years and this is the first time they have won. Congratulations - being as Ted bought the tickets this time.

Marg Swanton and the Boys played for the dance Saturday and there was a very good crowd. This Saturday we have Tommy Williamson, disc jockey again. Come on folks, he can surprise a lot of you. I know he did me and I love music but couldn't carry a tune in a bushel basket without a lid on it.

Hall's Lake News

Doreen Stinson

Monday, Labour Day Holiday, when nearly everyone was packing up to return home to work or school, the weather was beautifully warm and sunny and most were loathe to leave. The sunny days continued until Thursday when it rained and got colder, not until Sunday did we see the sun again.

A few cottagers have arrived again this weekend to do odd jobs around their places or just to get away from city noises. Nice to see Bill Golchuk with his family, Mr. and Mrs. Barry McQuillan with Jill and Scott, Don Hall with his associates and several others whose lights brighten up the shoreline.

Harriet and Reg Archer of Kitchener have been spending two weeks at their pleasant cottage and entertained the Scotts for dinner the other evening.

Things are simmering down now and we note that the 20th of September is being proclaimed 'Civic Holiday' for businesses who never take the real holiday when the tourists are here, so everything will probably be closed up tighter than a drum that day.

'FOR SALE' signs seem to be popular these days and this little area is no exception. If business this summer was as good as our local chamber of commerce says it was, then why are so many wanting to bow out? Lodge owners and stores have made many costly improvements to keep up with the times but it just hasn't paid off this year for those in this area anyway.

Miss Marjorie Johnson is busy preparing for her flight to England where she hopes to visit with relatives there for a few weeks. We send our good wishes for a pleasant journey and a safe return.

The school bus is once again driving by, picking up the local children with the juniors attending Archie Stouffer School in Minden and the seniors attending schools in Haliburton. All the schools are good ones and well-staffed and our children receive a good education in this whole county.

Mr. Sandy Sutherland of Burlington, age 22, just breezed in on his big motorbike, having come all the way from British Columbia, making as much as 500 miles per day.

Dale and Carolyn MacDonald are having a little rest and change from a steady summer at the Esso Station, spending time with their daughter, Cathy in Burlington, their son-in-law and young grandson, John.

We have been enjoying many lovely flowers from the garden of Mrs. Audrey Wilkinson. Her gladioli have been particularly colourful this year. Also appreciated the ones from St. Catharines which the Golchuks brought. Hard to realize that Christmas is only a little more than three months away when we see the flowers now in bloom. However, already the leaves are turning into their crimsons and golds.

Soon all the organizations will be starting up again and we hope you are keeping in mind the need for donations to the Kinettes Flea Market to be held in Minden on Sept. 25th. Mrs. Florence Lindsay, Mr. Art Hunt and Mr. Jim McLean have been taking in the sessions of hearings into the accident at Big Hawk Lake, held at the Community Centre and continuing this week. Many witnesses have already been on the stand and many important facts are now coming to light.

Sorry to learn that the Finneys will not be attending St. Stephen's Church too often in the future, since Norman is unable to drive and the distance is a little too far for a pick up for Margaret. We will miss them both, and appreciate their contributions to our little church - musical talents, envelope secretary and assistant warden.

Nice to have Althea Gartshore back from her vacation and to play the organ again.

Mrs. Hazel Welch celebrated another birthday the other day and had a few good friends in for afternoon tea. Best wishes Hazel! Mr. Art Hunt also had a birthday this week, and to him we also send our congratulations.

Russell and Margaret Warner left last week on a motor trip to Peace River to visit their son. They hope to continue on to see the North West Territories before returning home.

Violet and Norman Wallace have taken their camper-trailer and started off to the East Coast for a much deserved rest, leaving good friends behind in their home to take care of everything.

Tomorrow we are off for four days to visit Rosemary and Bill and if we are lucky we might get in a boat trip from Midland or Collingwood. Bonnie and George are looking after our doggie and putting out the papers for regular customers. It is nice when family co-operate to give us a break!

Neighbours are busy canning their garden vegetables and preparing for a long cold winter when produce is threatening to be expensive. Very few raspberries this year, if any, and the peaches had a short season.

Just heard that Mr. Norman Brown passed away at Ross Memorial in Lindsay and we send the sympathy of this community to Muriel.

CANADIAN ADVERTISING ADVISORY BOARD

The Senior League

Haliburton's beautiful EXTENDICARE

The Haliburton EXTENDICARE is now into its seventh month of operation and things are running along very smoothly under the capable administration of Mrs. MARY ELSTONE. Extendicare is primarily a NURSING HOME but it also has many SENIOR CITIZENS as residents. The difference between the two is that a Nursing Home has residents who need constant care, while the Senior Citizens pretty much look after themselves.....

This weekend, September 17, 18 and 19 is NURSING HOME WEEKEND in Ontario. All Homes in Ontario will be taking part in the First Annual event, which gives long-awaited recognition to the Nursing Home. The weekend will be celebrated along the same lines as was Senior Citizens' Week. At Extendicare in Haliburton on Friday evening residents will enjoy a beautiful

HAWAIIAN LUAU; then on Saturday, they will take part in a CARNIVAL, followed Sunday with a delicious CHICKEN BARBECUE. Here at the PROGRESS we wish every one of the 57 residents just a great time at this inaugural event.....

The Ontario Nursing Home Association held a contest to select a SLOGAN for the Nursing Home Weekend and of all the slogans sent in across Ontario, Haliburton's own Extendicare resident, CHARLES PLEWMAN was the winner with 'HOME AWAY FROM HOME'. Congratulations Charles, on a very appropriate slogan.

This past summer saw the residents of Extendicare extremely active, with BARBECUES every Wednesday, BUS TRIPS and then, of course, the residents came up with the second place float in this year's Haliburton Rotary Carnival.

Rev. Charles Logan of Texas

Will be at the
Allsaw Pentecostal Mission
Hwy. 121 on

**Sunday, September 19th at
11 a.m. & 7 p.m.**

Rev. Logan will also deliver a short testimonial on Sat. Sept. 18 at Deer Lodge at the Full Gospel Businessmen Fellowship Supper at 7 p.m. For tickets call 286-2923.

Quiche has recently become very popular for entertaining. This variation uses Edam cheese from Holland for a delicious, creamy filling.

Quiche Hollandaise

QUICHE has recently become extremely popular, and deservedly so. It is economical and versatile, appearing at brunches, lunches, light suppers and in miniature form as an appetizer or party snack. One elegant fashion extravaganza recently served quiche at breakfast. The recipe here is a variation on the classic Quiche Lorraine, using the less expensive Dutch Edam cheese for a slightly different flavour.

Quiche Hollandaise
(Edam and Ham Tarts)
Pastry for 12 tart shells
or one 9-inch pie plate

3 eggs
1 1/2 cups light cream
pinch of nutmeg
pinch of white pepper
1 cup shredded imported Holland Edam
1/2 cup chopped cooked ham
Line tart shells or pie plate with pastry. Beat eggs, cream, nutmeg and pepper together to mix thoroughly. Sprinkle ham over bottom of pastry; sprinkle shredded Edam over ham and pour egg mixture over all. Bake in preheated 375°F oven for 20 - 25 minutes or until set. Serve immediately. Makes 12 tarts or 6 servings.

About the Town

with Jeanne Sears

Noticed in the summer that highway employees were stationed at the Portage Bridge on Hwy. 35 but no one is there now. Suppose that repairs have been completed to that bridge?

New arrival is Danielle Elaine, daughter of Carol and Danny Francis and granddaughter of Clara Francis.

Francis Smith of Detroit, Michigan has been visiting with his sister, Mrs. Lorne Dawson.

Do you think this is true? A truly happy person is he who never stops to wonder whether he is happy or not.

McKenzie.

All their friends send good wishes to these people who are or have been in hospital, Angus Coulter, Everett Fearrey and Howard Johnson.

The smile of the child, as he starts for school,
Is a bit restrained, as a general rule.

The teacher's smile, in the same way, tends
To droop a bit as vacation ends.

But the smile much wider, than the others,
As the summer riot ends, is Mother's.

Bradley L. Morrison.

Sincere sympathy goes to the families and friends of the late Mrs. Cecil Harrison, Mrs. Kathleen Roberts, Jack House Norman Brown and Harry Winder who died recently.

Tim Eastman of Markham, Mr. and Mrs. John Kellett and Vernon Rivers of Toronto and Mrs. Leon Sedgwick of Fenelon Falls visited Mr. and Mrs. Ernie Eastman last week.

Hint of the week - Soak strips of cardboard 3" x 5" in melted paraffin wax; when dry store in little plastic bags, good to start your campfire.

Mr. and Mrs. Herman Hildred of Saskatoon spent several days visiting Mr. and Mrs. Thomas Newell.

Sunday guests with Mr. and Mrs. J. Warburton were Wes Cummings, Ivan Garbutt and Wayne Peyton all of Curve Lake.

Bradley Robinson left on Sunday for his fourth term at Western University, London, Ontario.

I am going to enjoy my self today,
No matter what comes, I am going to say
'Well, isn't that nice, who would ever have thought
Of the lovely things that the day has brought.'
I'll smile at people I do not know,
And wish them well... As I watch them go
Along the street or a shopping mall
Buying fruit from a country stall.
I will speak to a child in a shiny pram,
Holding a tiny woolly lamb,
Smile at his mother and share her joy,
Admire the curls of her little boy.
I will sing... perhaps in a squeaky key,
And the young folks will snicker and smile at me,
But I will not mind...for I know that they
Will come to the turn of the road some day.
And I hope they are happy and well content,
Glad in the thought of a life well spent.

Edna Jaques.

Jeff, Laurie Lesley, Greg Eastman, grandchildren of Mr. and Mrs. Ernest Eastman went home on the holiday weekend after a visit here.

People in our area are busy these days, preparing their gardens for the winter, as severe frost has brought most of the growth to an end, except perhaps for grass and weeds. There is not much colour in our trees as yet and we wonder if there will be as much since railway worm destroyed so much of the foliage in the spring.

Congratulations to the newlyweds, Mr. and Mrs. Lionel Davis (nee Judith Cowan) who were married last Saturday.

The past few years Dutch Elm disease has destroyed many of our stately elms, and these should be cut down as they could create a hazard near homes or cottages.

It was a grand weekend, with lovely September sunshine, roads are still busy on weekends, so drive carefully. Cheerio until next time.

Nursery registration next week

Minden Nursery Play will hold its final registration night at a general meeting in the Minden municipal office next Tuesday evening, Mrs. Faye Mansfield announced this week.

Minden Nursery Play is similar to a nursery school but is operated and supervised by local mothers.

It is open to 3-5 year-old children and if space is available, to 2 1/2 year-olds as well.

While the meeting is slated for 8 p.m., September 21, anyone with questions is asked to call Mrs. Ethel Muli at 286-2890.

Harcourt Centre in red...seeks help from Dysart

Competition from the Lloyd Watson Memorial Centre in Wilberforce is driving the Harcourt Community Centre into the red, Dysart council learned Monday. Harcourt Hall Board Chairman Alex Mullins told council that the two-year-old centre had virtually no bookings ahead this Fall and that dances and other fund-raising efforts have virtually failed so far. Faced with anticipated costs of some \$4,400 and with only \$1,800 in the kitty, the Community Centre asked council to write off the \$2,500 balance of a previous loan and make a grant to the centre of \$2,600. Sympathetic but needing more facts, council shelved any decision on the request until they have an opportunity to meet with Harcourt ratepayers sometime in the next few weeks.

INTERESTED IN REAL ESTATE? WANT TO KNOW MORE ABOUT IT?

Then take a few moments to call Lynn Craigmyle at Bowes & Cocks Limited to arrange a personal interview where you can get the full facts.

Bowes & Cocks is a very progressive real estate organization with 25 district offices in South Central Ontario. Because of our growth, we need people who are willing to accept the challenge and opportunity that real estate sales offers.

We could tell you here all about income, bonus plans, etc., but why not call us and we can do it in person. You can ask questions and get answers.

So call now --- it could be the best thing you'll ever do. Phone 457-2220.

Healing Substance: Shrinks Piles

Exclusive healing substance proven to shrink hemorrhoids and repair damaged tissue.

A renowned research institute has found a unique healing substance with the ability to shrink hemorrhoids painlessly. It relieves itching and discomfort in minutes and speeds up healing of the injured, inflamed tissue.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most important of all—results were so thorough that this improvement was maintained over a period of many months.

All this was accomplished with a healing substance (Bio-Dyne) which quickly helps heal injured cells and stimulates growth of new tissue.

Now Bio-Dyne is offered in ointment and suppository form called Preparation H. Ask for it at all drug stores. Satisfaction or your money refunded.

Preparation H

PETERBOROUGH LUMBER

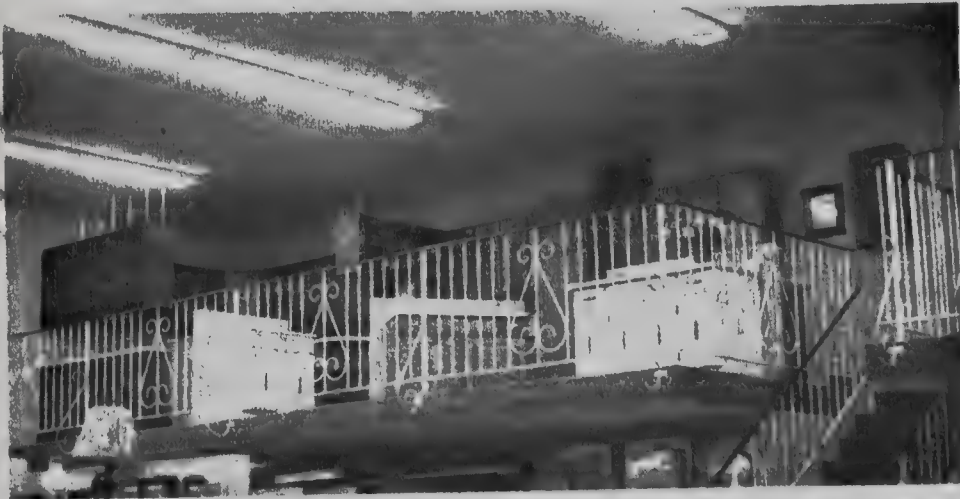

A Grand, Grand Opening

Welcome To Minden

MANAGER, BOB GORRIE; SALES AND AD MANAGER, AL WEBSTER and MINDEN REEVE, REG BOOTH

40,000 Items

THIS SHOWROOM, INCLUDING A KITCHEN MEZZANINE, RIGHT,

DISPLAYS SOME 40,000 ITEMS FOR THE SHOPPER.

The First

ASSISTANT MANAGER, STEVE SOUTHORN AND FIRST CUSTOMER, DENIS BRULEE, MINDEN

They turned out in droves, some 2,000 of them, \$150,000 PL building on the Minden bypass and happily jammed Peterborough Lumber's new Minden Building Centre for its official opening last Saturday. They came from Haliburton and Victoria and Peterborough counties and from as far away as Oshawa and Toronto and celebrated by buying out every, single sale item. The new

measures 76 by 188 feet and boasts a 5,000 square-foot showroom. Inventory is in excess of one-half million dollars and includes everything you could possibly need whether you're a do-it-yourself handyman or a contractor. On hand to officially open the new building was Minden

Reeve Reg Booth who cut the ribbon with the same gold scissors used by then Premier Leslie Frost to open Minden's present municipal building. According to PL's Minden manager Bob Gorrie the building centre will employ 15 persons during the busy summer months and 8 in the winter with 14 and 7 of these hired locally.

Cliff Burke

Rowland Sedgewick wins curling club tournament

On Sunday afternoon at Beaverbrook Golf Club, the Minden Curling Club held their second Golf Tournament of the season. The nine-hole tournament and barbecue attracted 58 golfers, the largest contingent ever to take part. Rowland Sedgewick was the low gross winner on this occasion with a splendid 40. Tied for low gross honours among the girls were Winnie Gilhooley and Peg Pettinger. These two tied with 56's then played three play-off holes and came in still tied so the Curling Executive decided twelve holes were enough and declared both girls winners.

In the low net competition, J.O. Jackson and Cliff Burke once again tied at the end of the regulation nine holes with 41's forcing a three hole play-off. These two repeated their performance of last May when they tied for loss gross honours and played off, with J.O. winning by two strokes. This time around however, Cliff turned the tables on J.O., winning by two strokes. The low net lady was Joanne Penfold. Runners-up in the men for low net honours were J.O. and Bill O'Bee while for the ladies it was Linda Brandon and Caroline Sturge.

The longest drivers of the tournament were Ada Campbell and Bill Ingram. Closest to the hole on the par three-eighth hole was Ed Pettinger (3') and Jean Jackson (6').

In the putting competition, Marj Windover took top honours for the girls while there was a three way tie in the men's competition, forcing a play-off. Les Johnston emerged the winner in the play-off over Herb Gill and Graham Gilhooley.

The most honest golfers of this tournament went to Fred Martin and Elaine Blakey.

After the golfing was over, the curlers and their guests sat down to a barbecue of hamburgers and hot dogs and then relaxed in the clubhouse with refreshments and dancing. The curlers are now anxiously awaiting the beginning of the curling season.

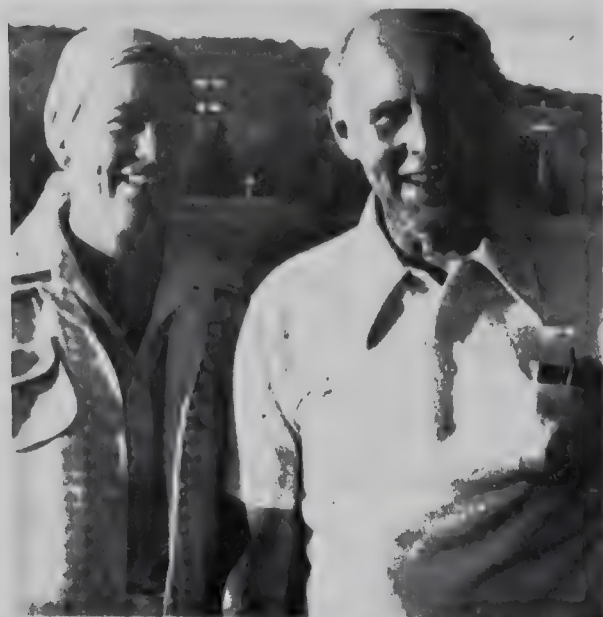

Low Gross winners - (l-r) Winnie Gilhooley, Rowland Sedgewick and Peg Pettinger.

Longest Drive - Bill Ingram accepts award from M.C. Catherine Kellett. Missing: Ada Campbell.

Low Net Winners - Joanne Penfold and Cliff Burke.

Putting winners - Marj Windover and Les Johnston.

Closest to the Hole - Ed Pettinger and Jean Jackson.

Team Canada - Class of World

On Saturday evening at Maple Leaf Gardens in Toronto, Team Canada erased any doubt in anyone's mind as to who the best hockey players are in the World, when they defeated the Soviet Union 3 - 1. And if there were any doubters there definitely aren't any now after the thorough destruction of Czechoslovakia on Monday evening at the Gardens. This time Bobby Orr and a Junior B goaltender, wiped out the Czechs 6 - 0.

The final game of the best two out of three series may not be as easy as this on Monday night but in my mind, there is just no way the Czechs can recover from the beating they took from Canada. The series is too short and they were outplayed very badly in every phase of the game.

This reporter never thought he'd live to see the day that a team of superstars like the one Team Canada is, could play the type of all-out offensive hockey that they have displayed to date and to also play the tough disciplined hockey they showed in the past two games. In six games they haven't given up a power-play goal and the opposition has had thirty opportunities to score to date. This is incredible. The power play goals Canada has scored has come as no surprise to Canadians because there is just too much fire power on this team. Even though the coach of Team Canada, Scotty Bowman has sent out the same five players each time on the power-play, I'm sure that each of the other three lines would have the same amount of goals, if not more.

The final game of this series on Wednesday evening will probably be another classic like the 1 - 0 thriller that Czechoslovakia won last week but there is just no way this Canadian team will ever be shut out again. It will be all over on Wednesday and a damn shame too. Allan Eagleson should have made the final, a best of seven affair because you'll not see anything close to this kind of hockey in the National or World Hockey Leagues this winter. It's going to seem like an eternity until the next Canada Cup. Let's hope they hold this fine tournament every two years and not every four like they are suggesting.

The winners of the 1976 Toyota Celeca GT on the four teams that have been eliminated were presented with their keys by Senior Vice-president of Toyota of Canada, Don McArthur, at the end of the Canada-Czech hockey match on Monday evening. Borje Salming was a unanimous choice from Sweden, also winning hands down from the United States was Robbie Ftorek. Matti Hagmann took top honors from Finland and Vladimir Tretiak was the outstanding Soviet player.

My choices for the most valuable player honours on Team Canada are Bobby Orr and Milan Novy of the Czechoslovakia team.

HOOKED.....Forward Ivan Hlinka (21) tries to stop Team Canada centre Bobby Clarke (16) during Monday night's game in Toronto. Team Canada whipped the Czechs 6 - 0.

FUTURE GAMES

Sept. 15th - 2nd game of final.
Sept. 17th - 3rd game of final, if necessary.

Dominion one game from Muskoka Cup

On Sunday afternoon in Minden at the Kinsmen Ball Park the Dominion Hotel won their second game in their best three out of five series with the Bracebridge Eccelstone Hardware. Playing with just four regular Dominion Hotel players, the Hotelmen edged the Hardware boys 9 - 7. Barry Shaw and Royce Miller combined to pitch the Hotelmen to victory.

The second game in this series goes later this week, depending on the weather. The game will be played in Bracebridge. The Dominion Hotel played the Bracebridge boys in Haliburton on Wednesday evening, but because they arrived with only seven players, Dominion lent them three players and they played an exhibition game for the small crowd that showed up to watch. The Hotelmen gave the Bracebridge team Royce Miller and the visitors also picked up Mark Schell and Jack Morrison. The added help didn't help them on the scoreboard, however, as the Hotelmen won easily 8 - 4. Jack Snell was the winning pitcher while Royce Miller took the loss.

Match Play continues at Haliburton Golf Club

The second round in the Haliburton Golf Club's Match Play Golf Tournament is now history except for three groups. John Wilson meets John Parrish, Bill Hartin tangles with Brian Madill and Gary Brohman plays Joe Iles. Those who have advanced to the third-round of play are: Hugh Nichol by default over Paul Morrisette. Art Dawson eliminated Cliff Burke. Ken Rosenberg edged Bob Nichol. Bob Woodcock defeated Bev Billings. The odds on favourite to win this tournament is anyone's guess. Hugh Nichol still holds the inside edge but Ken Rosenberg and Bob Woodcock also have an excellent chance.

NATURAL RESOURCES

A formal introduction

One of the most common misconceptions about Algonquin with many visitors, is that you have to go "way back" in the interior to see wildlife. But as a matter of fact, your chances are better right along Highway 60. In many cases this is not because wildlife is more plentiful along the road, but simply because you can cover more ground in a car and (provided you keep a sharp lookout) you are therefore that much more likely to come across something interesting. In other cases, however, wildlife really is more abundant along the highway. For example, it would be very unusual to go from the West Gate to the East Gate without driving past at least one Broad-winged Hawk sitting on a favorite perch on a pole or wire beside the highway. Sadly enough, it would also be very unusual to see that even a single car had noticed one of these Broad-wings and had pulled off for a closer look.

We regret this state of affairs because it means many wildlife seekers are missing a good bet. There is no good reason for this to continue, so allow us to make a few introductions.

The Broad-wing is not an especially large hawk - in fact, it is only about the size of a crow. It is a dark brown above and white below, crossed by many fine, reddish parallel lines. The most conspicuous identifying mark is the short tail with its broad, black and white bands.

Most of us tend to think of hawks as fast, powerful fliers but the Broad-winged Hawk, living up to its name, has very broad wings (that is, broad from front to back) with rounded ends. This is not a good configuration for fast flight, and in fact, the Broad-wing is a bit of a duffer compared to some hawks. This may seem puzzling, but why rush when you can get a free ride. The Broad-wing simply gets up a little speed and then uses those broad wings to soar for hours on rising currents of warm air. True, this really works only on sunny days, but the Broad-wing is also content to spend hours on a convenient perch overlooking a clearing (such as the highway).

Whether soaring or perching, the hawk is really doing the same thing - waiting for a frog, a snake, or a mouse, to show itself on the ground below. None of these animals (let alone the beetles and other insects also preyed upon) are aware of anything beyond their immediate surroundings and this means that Broad-wings can get away with being slow-moving and soaring or perching in what seems to us to be plain view. Most prey is probably unaware of any danger until it is seized by the razor-sharp talons of the hawk dropping from above.

Floating around in the sky and waiting for lunch to present itself may seem to be a soft touch but appearances are deceiving. Broad-wings, no less than any other living thing, must perform at peak efficiency if they are to survive and reproduce.

THE Raven

Eyes and reflexes far keener than our own are obvious adaptations for the efficient extraction of food (energy) from the forest, and so are the Broad-wing's energy conserving hunting methods. Other adaptations are not so obvious but are even more interesting. Male Broad-wings weigh about 20 per cent less than females, and this means they have lower food requirements. When a male is feeding not only himself but also his mate who must incubate the eggs for a month, and then brood the young during their first two weeks of life, his lower food requirements may mean the difference between success or failure in finding enough food for his family.

Broad-wings allow any necessary reduction in numbers to be made quickly and decisively - without the protracted struggles that would occur if the young were all the same age and strength. The Broad-wings, unencumbered by human sentimentality, have evolved an 'ingenious' solution to the very real problem of raising hungry young with unpredictable food supplies.

The word 'ingenious' might also be applied to the method used by Broad-wings to migrate south - by effortlessly spiralling up thousands of feet in rising thermals under big, white cumulus clouds, coasting south for miles, and then repeating the process in other thermals - all without a single wing-beat.

In another month tens of thousands will be visible on good days along the north shore of Lake Ontario. In the meantime, however, you can see them at much closer distances right along Highway 60. It's quite all right to pull off for a closer look - now that you've had a formal introduction. Female Broad-wings, like other birds of prey (but unlike almost all other birds) start to incubate as soon as the first egg is laid. Since the 2 or 3 eggs are laid at intervals of two days and all require the same time to develop, the second egg hatches two days later than the first and the third egg (if there is one) hatches two days after that. This spread in hatching dates results in a corresponding spread in the size of the rapidly growing nestlings and puts the second and third oldest at a severe disadvantage in competing for the food brought by their parents. If food is short, the third young to hatch (and even the second may get little or no food and starve to death - or be cannibalized by the hungry eldest hawklet. However unpleasant this may sound to us humans, it makes very good sense for the hawks. If food is plentiful the adults are capable of raising three young, but if it is scarce, there is no point in trying to do the impossible - and perhaps losing all three young as a result. In years of food scarcity it is far better that the brood be quickly reduced to a realistic size and no more food wasted on a young hawk that is going to die anyway. The age and size differences among young

Along The Trails

Nineteen people from across Ontario, all members of the Ontario Federation of Snowmobile Clubs, were qualified early in August at a special course in Barrie, to teach and certify snowmobile instructors in the province.

The Master Instructors were the first to be qualified as part of the Provincial Government's program that will require snowmobilers to have either an automobile or snowmobile drivers licence to operate a snowmobile on public trails or other public areas in Ontario. The program is being developed by the Ontario Ministry of Transportation and Communication, the Ontario Safety League, and the Ontario Federation of Snowmobile Clubs.

Plans are now underway for the master instructors now trained to set up regular instructors courses throughout the Province. To date, about 400 applications have been received for the instructors course. Selected applicants should be trained and certified within the next two or three months and ready to set up their own schools of instruction for snowmobile operators shortly thereafter.

Master Instructor for Haliburton County and the surrounding area is OFSC Director, Roy Bates, R.R. 2, Haliburton, Ontario, KOM 1S0. Selected instructors for the area are fully experienced snowmobilers of the Haliburton County Snowmobile Association: Bob Jennings, R.R. 2, Minden, Ontario, KOM 2KO and Robert Patton, R.R. 2, Minden, Ontario, KOM 2KO.

There exists an excellent opportunity for other experienced snowmobilers to take part in the program. Additional instructors are required and the instructors now selected will be able to use assistants. This will not be a highly paid position, nor will it gain you great fame, but if you wish to be a part of this aggressive forward step for the snowmobilers of Ontario please submit your name to the director as listed above.

HYDRO LINE TRAIL CLOSURE STRONGLY OPPOSED
Subsequent to the Ministry of Natural Resources announcement (August bulletin) of the Algonquin District granting a new trail in the Park at Martin's Mill and closing of the hydro right of way in Clyde, riders of the Hydro line have taken steps to fight for retention of that popular trail to Whitney. A highly indignant delegation attended the August 25th directors meeting to demand action.

At stake here is not alone the eleven mile section of transmission line across Algonquin Park. With five or six hundred miles of trails at our disposal, what's nine miles more or less? What really hurts is that a brand new multiple access circuit, about to be groomed in its entirety for the first time this year, is rendered almost worthless without this eleven mile section.

The Ministry has done extensive work in opening up and grooming the McClure trail from Martin's to Lake St. Peter and an abandoned railway north to Whitney. Our Peterson

Trail and the Hydro line form the southern and western angles of what could have become the most popular safari route in the entire region. We've been five years developing the Peterson. Are we going to allow all that effort to go down the drain?

Unfortunately, our fight is not with the local district offices of the ministry (Minden, Bancroft, Whitney) where many of the personnel are privately on our side, but rather with the Algonquin Park Authority, headquarters in Toronto, who have decreed that there shall be no snowmobiles permitted in the Park. This organization will be a very hard nut to crack.

In order to devise an effective action plan, the HCSA has invited interested groups, organizations or individuals to attend our next directors' meeting, September 22nd in our room upstairs in the West Guilford Community Centre. This will be followed by an open meeting in the arena auditorium, Haliburton, September 27th at 7:30 pm to which representatives of all levels of government will be invited along with the OFSC and neighbouring snowmobile clubs. HCSA members are URGED to attend, for in this battle a united front is imperative. Let's do it right, this time.

GROOMERS WON'T RUN ON AIR - Since early Spring your directors have been racking their brains to come up

with a sure-fire method of raising money for Bombi payments and the expenses of next seasons grooming. Several new ideas were tried, with some success, and so far we have kept out of the red, but more - much more - is needed. The next club dance, September 18th in the Minden Community Centre, is an opportunity for you to fully support our grooming program and have fun doing it. Cost of admission may seem steep at \$8.00 a couple, but you would pay this much for a good restaurant meal without question. And don't forget, a buffet is included. There is also a good chance of winning a valuable prize.

The Uptown Country Sound of Carm Peters and his band was very well received by all who attended and enjoyed our dance on August 21st. Come hear them.

Our snowmobile draw will be made at the dance. So far ticket sales have not been spectacular. If you have a book of tickets laying around, please **SELL THEM** and get the stubs and money turned in! There's not much time left! An unsold ticket won't buy gas!

We hope that everyone has replied to the Membership Chairman's letter and that tomorrows mail will be full of cheques. You may think it doesn't matter when your money is received, but it does. An early and complete renewal will give a better idea of what we will have to work with and who we have to work for.

Old age pension payments rise

Ottawa - Increases in the Old Age Security pension, Guaranteed Income Supplement and Spouse's Allowance, effective in October 1976 were announced last week by Health and Welfare Minister Marc La Londe.

Increases in Old Age Security pension and Guaranteed Income Supplement payments represent the 12th quarterly escalation based on the cost of living, as provided for in the Old Age Security Act.

The new monthly total at the single rate for persons receiving both the basic Old Age Security pension and maximum Guaranteed Income Supplement will be \$237.15.

For a married couple, both pensioners, the combination of the basic pension and maximum supplement will provide a payment of \$452.40 for the couple monthly.

The basic Old Age Security pension will rise in October to \$139.39 from the present \$137.06.

The Guaranteed Income Supplement is paid to pen-

sioners whose income, apart from the Old Age Security pension, is limited. The amount of the supplement varies in relation to the amount of income.

The maximum Guaranteed Income Supplement for a single person, or a married person whose spouse is not a pensioner and is not receiving a Spouse's Allowance, will go up in October to \$97.76 from its current \$96.13. The maximum supplement for a married couple, both pensioners, will increase to \$86.81 each from \$85.36. Added to the basic pension, this will give each married pensioner \$226.30 monthly, or a total of \$452.40 for the couple.

The Spouse's Allowance is paid to persons between 60 and 65 years of age who are married to Old Age Security pensioners and meet residence requirements. Entitlement to a Spouse's Allowance and amount paid is based on yearly income.

The maximum Spouse's Allowance will increase to \$226.20 from \$222.42. The maximum Spouse's Allowance is made up of an

Witnesses hold assembly

People everywhere long for righteous rulership. We need a government that can solve the problems of employment, ample food, disease, pollution of the environment and racial difficulties. These were the words of Mr. Roach as he talked to an audience of 929 Jehovah's Witnesses who met for their semi-annual circuit assembly at Brampton, a week ago last Sunday. Mr. Roach used Jesus' Sermon on the Mount to show how God's Kingdom would soon bring about remedies to the world's problems. In conclusion the speaker urged his audience to keep on seeking God's Kingdom and advocating it to others. The above lecture entitled "Keep Seeking God's Kingdom" was one of the highlights of the Sunday program? another was the baptism of 10 new Witnesses by water immersion.

Mr. Ronald Newbatt, spokesman for the Minden Area delegates, said that the two-day meeting afforded the Witnesses an opportunity to examine closely the guidelines set out in the Bible. It was emphasized to us that these guidelines have been given to us by a God of love and are not designed to hobble us but rather to serve as a protection from what is harmful.

Mr. Newbatt concluded saying, "The two-day refresher course has really helped us to see the Bible from a practical viewpoint and stimulated us to recommend it to others as well as make use of it more fully in our own lives."

amount equivalent to the basic Old Age Security pension and the maximum Guaranteed Income Supplement at the married rate.

Ontario Hydro

BRUSH REMOVAL

Ontario Hydro invites contractors who are Provincially licensed for the application of pesticides, to submit tenders for the cutting and disposal of brush, the lowering of existing stumps and the spraying with herbicide, of approximately 136 acres of distribution lines located in Stanhope Township in the Minden Area.

Work is to commence approximately mid October 1976 and is to be completed by December 15, 1976.

Tenders will be received up to 2 p.m. local time, Wednesday, September 29, 1976.

Tendering documents may be obtained:

From: 700 University Avenue, Toronto 13th. floor reception desk (or for inspection only)

OR

Mr. D. Mann Ontario Hydro Area Office Minden, Ontario

Write: Ontario Hydro Attn: Mr. J.A. Tomlinson H13 D23 700 University Avenue Toronto, Ontario M5G 1X6

Phone: (416) 592-3571

The successful tenderer may be required to furnish a performance bond. Further details are contained in the tendering documents.

The lowest or any tender will not necessarily be accepted.

Flowers-by-Wire

Since Nancy Brink opened her 'Nancy's Flowers' on Haliburton's Maple Street last December, this small but growing shop has become a real hit with the village. Last week Nancy received a special United

Flowers-by-Wire Certificate enabling her to send flowers anywhere in Canada and the United States on behalf of her customers. Seen above displaying her new certificate, Nancy also holds a designers' diploma. Born in

Holland, Nancy learned her trade early from her father, himself a gardener. Her shop specializes in cut flowers and potted plants, plus dried flower arrangements and hanging baskets.

Dysart shelves noise bylaw

Dysart Council decided this week to shelve a proposed special noise pollution bylaw after learning that enforcement of the bylaw would require a full-time and specially trained noise pollution officer. Currently Dysart residents complain of squealing tires, barking dogs, plus late-playing record players and tape decks on beaches. After Reeve Murray Fearrey explained it would take more than one trained noise pollution officer to handle the six townships comprising Dysart et al, council decided to wait and see how Anson, Hindon and Minden made out with their noise pollution bylaw passed last month before embarking on their own.
